-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 01 May 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

***Election/Restrictions***

**DETAILED ACTION**

***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species: NOTE: One of EACH Species, Sub-species, Sub-Sub-species and Sub-Sub-Sub-species MUST be chosen from below.
2. The following **Species** apply:
  - a. Securing means comprises stitching (like claim 5)
  - b. Securing means comprises knots (like claim 6)
  - c. Securing means comprises knotless intersections (like claim 7)
3. The following **Sub-species** apply:
  - i. Fastening means comprise shackles (like claim 8)
  - ii. Fastening means comprise quick release fastenings (like claim 9)
4. The following **Sub-Sub Species** apply:
  - (1) First plurality of lengths comprise textile webbing (like claim 11)
  - (2) First plurality of lengths comprise rope (like claim 12)
  - (3) First plurality of lengths comprise plastic fibre (like claim 13)

(4) First plurality of lengths comprise metallic fibre (like claim 14)

5. The following **Sub-Sub-Sub-Species** apply:

(a) Second plurality of lengths comprise textile webbing  
(like claim 15)

(b) Second plurality of lengths comprise rope (like claim  
16)

(c) Second plurality of lengths comprise plastic fibre (like  
claim 17)

(d) Second plurality of lengths comprise metallic fibre  
(like claim 18)

NOTE: one of EACH must be chosen from sections 2-5 above. For example species a,  
sub-species i, sub-sub-species 3, and sub-sub-sub-species d.

d. The species are independent or distinct because a separate search  
would be needed to address each of the species and various sub-species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for  
prosecution on the merits to which the claims shall be restricted if no generic claim is  
finally held to be allowable. Currently, claim 1 is generic.

Art Unit: 3643

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the

Art Unit: 3643

record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy D. Collins whose telephone number is 571-272-6886. The examiner can normally be reached on M-F, 7:00-3:00, with every other Fri. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter M. Poon can be reached on 571-272-6891. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
